If you wish to receive those images before disclosing the decryption keys, you will need to seek relief from the Court.

Wei Xiang

Assistant United States Attorney

Narcotics & Organized Crime Section

Western District of New York

Wei:

In light of your last email, as part of the Government's discovery, I will need a forensic image of each of the flash

drives in the Government's possession in "encase format".

The forensic computer expert I use is unavailable until late March so as indicated in my last email I will be requesting an adjournment of the date I need to file motions by and the date of our next court appearance.

Please advise.

Regards,

Steve Leonardo
