anyway i have a plan regarding the press

2:03

LouisXV@swissjabber.ch

whats up

2:03

internet151@swissjabber.ch

can i call? it's kind of a lot to say

2:05

internet151@swissjabber.ch

if not i'll type out my plan in a minute

2:06

LouisXV@swissjabber.ch

type it out im inbetween talking to my parents and you at the same time

2:06

internet151@swissjabber.ch

ok

2:06

internet151@swissjabber.ch

basically i'm going to have you rent space in my dad's office building, the space you'll be getting is already converted into an apartment-style area and it's vacant right now. you won't ever tell him anything about our plans, just pose as one of my friends looking for apartment space and he'll show you around and you'll tell him it's fine and you'll take it. he'll accept cash and won't make you sign anything and includes all utilities and everything for only \$500, plus the building is empty at night so you wouldn't disturb anyone with the press/mixer

GOVERNMENT EXHIBIT D

- oh 2:52
- i noticed something unusual with the alp powder tracking 2:52
- it went out for delivery today, then 49 minutes later was held for pickup 2:52

**LouisXV@swissjabber.ch**

- yeah it requires a signature and I wasnt available at the time to recieve so it went back to the post office 2:53

**internet151@swissjabber.ch**

- your mailman gets there that early? 2:53

**LouisXV@swissjabber.ch**

- yeah like 7 or 8am 2:54

**internet151@swissjabber.ch**

- oh ok 2:54
- ask your dad for some time off so you can move the press and shit outta there imo 2:55
- that's what he wants anyway so i'd imagine he'd agree to that 2:56

**LouisXV@swissjabber.ch**

- ok My dads got me going back to work in the next 30min so I gotta off soon, But we should make arrangements to move everything in the next day or two 3:00

**internet151@swissjabber.ch**

- as soon as your ready to proceed with my plan let me know 3:01

**LouisXV@swissjabber.ch**

- alright I gotta go do some work I'll be back on later tonight 3:01

**internet151@swissjabber.ch**

- ok 3:01

**LouisXV@swissjabber.ch**

- ight later

**LouisXV@swissjabber.ch**

Hey whats up

9:17

**internet151@swissjabber.ch**

**LouisXV@swissjabber.ch**

lemme check this out

9:18

**internet151@swissjabber.ch**

edward snowden himself giving the thumbs up to the app i recommended you (signal) heh

9:18

**LouisXV@swissjabber.ch**

thats funny

9:18

I trusted your judgement

9:18

I had a buddy that told me to use some App called wickr

9:18

it had like self destructing messages

9:18

you set the time limit and they dissapear

9:18

**internet151@swissjabber.ch**

that in of itself doesn't mean anything

9:19

**LouisXV@swissjabber.ch**

yeah im sure they document everything somewehre

9:19

the only think i dont like about signal is you have to verify it with your phone number

9:19

seems like it can be linked back to you some way

9:19

**internet151@swissjabber.ch**

all they would know is you have the app and your sending messages they can't read

9:20

that in of itself is not really too useful to them

9:20

**LouisXV@swissjabber.ch**

yeah but it doesnt really delete the messages itself

9:20

it keeps a log everytime you open it up

9:20

GOV-004

**LouisXV@swissjabber.ch**

seems like our venture will be 1000 times more profitable 9:22

**internet151@swissjabber.ch**

oh yea i know i told you that before 9:22

when you pitched the idea to me 9:23

**LouisXV@swissjabber.ch**

yeah once we get the ball rolling 9:23

hopefully the orders roll in as fast as we hope 9:23

I think it'll help if you go ahead and make a vendor account with the same name on the forums 9:24

and start advertsing a new shop opening up 9:24

giving prices or saying we offer full escrow 9:24

**internet151@swissjabber.ch**

let me see if agora is up 9:24

im thinking we may need to setup on necleus market as well as agora 9:25

they would be a good backup it seems as their site uptime is REALLY high compared to all the others 9:25

**LouisXV@swissjabber.ch**

I think Blackbank is the second biggest market right now 9:25

I saw something about them having 100k+ registered users 9:25

**internet151@swissjabber.ch**

yea blackback was 9:25

**LouisXV@swissjabber.ch**

well its currently down too 9:25

**internet151@swissjabber.ch**

but it's been down for over 100 hours 9:25

**LouisXV@swissjabber.ch**

yeah maybe blackbank is having some serious 9:26

**GOV-005**

internet151@swissjabber.ch

but it's been down for over 100 hours

9:25

LouisXV@swissjabber.ch

yeah maybe blackbank is having some serious issues

9:26

I told you I saw awhile back alot of the markets were under attack by havkers

9:26

hackers

9:26

internet151@swissjabber.ch

i dont really want to fool with too many vendor accounts as that might be too much of a pain in the butt, at least to start

9:27

so i'm thinking agora + 1 really reliable site

9:27

and that right now looks to be nucleus

9:27

LouisXV@swissjabber.ch

yeah Agora for sure thats where 85% of the DNM traffic is

9:27

internet151@swissjabber.ch

and we advertise on agora to visit us on nucleus when AG is down

9:27

LouisXV@swissjabber.ch

yeah that would work

9:27

do you think we should set up a lelantos email also?

9:27

from my understanding its the safest Tor email

9:28

internet151@swissjabber.ch

what is lelantos

9:28

LouisXV@swissjabber.ch

but it costs a little bit of BTC to open an account

9:28

I see in most vendors profile they have a @lelantos email address to contact them at incase the markets are down

9:28

GOV-006

**internet151@swissjabber.ch**

▶ i'll do a little reading and get back to you on that 9:28

**LouisXV@swissjabber.ch**

▶ yeah dig around a little and see 9:29

▶ I think I went to the site awhile back and it cost btc 9:29  
so I just left it alone

**internet151@swissjabber.ch**

▶ \$32 for a lifetime sub on lelantos 9:31

**LouisXV@swissjabber.ch**

▶ yeah I think we should probably get that just for safety 9:32

▶ but it needs to be the same name as the Vendor account we choose 9:32

**internet151@swissjabber.ch**

▶ yea 9:32

**LouisXV@swissjabber.ch**

▶ so we can start building an alternate persona 9:32

**internet151@swissjabber.ch**

▶ when will you be ready to proceed with the plan i presented earlier today 9:34

**LouisXV@swissjabber.ch**

▶ hopefully i'll have a solid answer for you in the working 9:34

**internet151@swissjabber.ch**

▶ you mean morning? 9:35

**LouisXV@swissjabber.ch**

▶ like I said im working full time and im trying to be as respectful as possible with my parents 9:35

▶ yeah in the morning 9:35

**internet151@swissjabber.ch**

▶ how long is that going to go on btw? 9:35

GOV-007

**LouisXV@swissjabber.ch**

yeah What name did we say we liked again?

10:10

**internet151@swissjabber.ch**

uhh let me look

10:10

xbars?

10:10

**LouisXV@swissjabber.ch**

have you looked at r/thebarbarians recently

10:10

the entire xanax market has gone to shit

10:10

not current realiable vendors

10:11

**internet151@swissjabber.ch**

yea it's a prime time for us to swoop in and make a killing

10:11

**LouisXV@swissjabber.ch**

I really think if we advertise ourselves and at first and offered like some 250 and 500 listings

10:11

and let a few big fish roll in and check us out

10:11

see our quality is goo

10:11

good

10:11

leave good reviews

10:12

later on we should just have 500, 1000, 5000

10:12

maybe 10,000

10:12

we're gonna have to stock pile some pills though before that

10:12

**internet151@swissjabber.ch**

yea once we establish a good rep i don't want to run around mailing 10 pills at a time

10:12

**LouisXV@swissjabber.ch**

yeah exactly

10:12

**internet151@swissjabber.ch**

we want to try to reduce the # of packages being sent out as much as possible

10:13

but we need rep to get to that point

10:13

GOV-008

**LouisXV@swissjabber.ch**

yeah I dont think we should have a listing under 10:13  
250

**internet151@swissjabber.ch**

we'll see how the market orders come in 10:13  
and raise it accordingly 10:13

**LouisXV@swissjabber.ch**

what kind of prices were you thinking 10:14  
as far back as I can remember to the silkroad1 10:14  
days ive always seen a \$1 a piece to be the going rate

**internet151@swissjabber.ch**

i'd have to analyze the competition and then price 10:15  
accordingly from there  
maybe offer cheaper rates when were starting out 10:15

**LouisXV@swissjabber.ch**

I know the top 4 current vendors are all sitting at 10:15  
\$1 a piece

**internet151@swissjabber.ch**

i thought you said there were no reliable vendors 10:15  
of bars anymore

**LouisXV@swissjabber.ch**

2 are on vacation 10:16  
the other 2 are in stock 10:16
