

internet151@swissjabber.ch  
ok 10:53

LouisXV@swissjabber.ch  
if we can get some of the more well respected people on there to order samples of our product and leave reviews giving us a thumbs up on the forums people tend to follow 10:53  
lol theres a new vendor named USAXanax 10:54  
didnt we throw that name out? 10:54

internet151@swissjabber.ch  
i think i saw that actually 10:54  
no 10:54

LouisXV@swissjabber.ch  
he 10:54  
hes sellign 100 bars for \$200 10:54

internet151@swissjabber.ch  
are people actually paying that much? 10:55

LouisXV@swissjabber.ch  
you can ask more for 100 packs 10:55  
I guess 10:55  
with the demand currently 10:55  
I know I wouldnt pay that much 10:55

internet151@swissjabber.ch  
well they still go for a lot more than that on the street 10:55  
so i can see it happening for \$2 a bar at this level 10:56

LouisXV@swissjabber.ch  
street price is \$5 a piece when you buy 1 at a time usually 10:56  
\$3 when you get in the 100s 10:56  
but I think We will be safe and make alot of money going \$1 a piece at all quantity 10:56  
thats our price set in stone 10:56

The screenshot shows a chat window with a title bar containing various system icons. The chat messages are as follows:

- internet151@swissjabber.ch**
  - I guess 10:55
  - with the demand currently 10:55
  - I know I wouldnt pay that much 10:55
- internet151@swissjabber.ch**
  - well they still go for a lot more than that on the street 10:55
  - so i can see it happening for \$2 a bar at this level 10:56
- LouisXV@swissjabber.ch**
  - street price is \$5 a piece when you buy 1 at a time usually 10:56
  - \$3 when you get in the 100s 10:56
  - but I think We will be safe and make alot of money going \$1 a piece at all quantity 10:56
  - thats our price set in stone 10:56
  - or maybe we get cheaper at 10k? 10:57
- internet151@swissjabber.ch**
  - generally what i like to do is see what the competition is doing and just undercut them 10:57
  - if were the cheapest vendor at like \$1.50 for example there's no reason to go lower 10:57
- LouisXV@swissjabber.ch**
  - yeah I agree 10:58
- internet151@swissjabber.ch**
  - we'll have to look around and see what the going rate is on darknets 10:58
- LouisXV@swissjabber.ch**
  - this downtime really sucks 10:59
  - like I hope the stability of the DNM levels out soon 11:00
  - or its gonna suck 11:00
- internet151@swissjabber.ch**
  - nucleus uptime is good enough 11:00
  - but yea hopefully agora stops sucking by the time we get the press moved 11:00
